Re: Recommendation Letter for Bill Uhl

To Whom It May Concern:

I am writing regarding my work with Bill Uhl on the case of Miller v. State of California. The case involved complex issues regarding the safety of a particular area inside an off road motorcycle riding park, off road motorcycle riding technique, comparative negligence (of the rider), human factors (ergonomics) relating to off road riding, the design and maintenance of trails, and trail construction.

After laying an appropriate foundation, Mr. Uhl was qualified as an expert witness in the Superior Court of the State of California, on the following topics:

1. Whether an off road riding area was safe/dangerous;
2. Whether a severe slope (drop off) was an inherent part of off road motorcycle riding in an OHV park;
3. Whether the off road rider was comparatively negligent (riding technique);
4. Human factors/ergonomics -- interface of motorcycle and man and motorcycle rider and environment;
5. Whether the area in question constituted a trail;
6. Trail construction and Maintenance.

trial lawyers know, 90 percent of doing well in Court is preparing well prior to getting to Court. Here too, Mr. Uhl was terrific. He work tirelessly for hour after hour, day after day, refining his opinions, solidifying the bases of those opinions, and preparing both of us to be able to give our best performances in Court. In short, he brought the same approach to the Courtroom as he brought to his gold medal winning performances as an elite athlete and off road motorcycle legend.

It was my great honor and privilege to work with Mr. Uhl and I would hire him again without the slightest hesitation. Anyone contemplating hiring Mr. Uhl is welcome to call me at the telephone number listed below.

Sincerely,
