January 22, 2011

Bill Uhl  
c/o 1121 Bunker Creek Rd.  
Chehalis, WA 98532 USA

To Whom It May Concern:

Mr. Bill Uhl served as an Expert Witness for our law firm. The case was an Underinsured Motorist Arbitration in which my client was successful in a case of contested liability.

Mr. Uhl is a skilled operator, trainer, and mechanic for off-highway vehicles (off-road motorcycles, dual sport motorcycles, ATVs, snowmobiles and UTVs / side-by-sides). His expertise also includes trail design, construction, and maintenance.

He was extremely efficient and knowledgeable regarding educating me about the science / physics behind dual sport motorcycle riding / off-road vehicle riding and hauling a passenger while riding an off-road vehicle.

It was evident that the subject matter of off-road vehicle riding and safety has been Uhl's life-long pursuit. He knows the material inside and out and is extremely knowledgeable about all areas of off-road vehicle riding and safety.

I believe that, in the eyes of the arbitrators, Mr. Uhl's testimony was the determining factor in establishing liability in the case. He presented himself extremely well. He was very thorough, accurate and efficient. He was also always timely regarding my requests. Additionally, in the stress and pressures of litigation, Mr. Uhl was pleasant and even tempered.

It has been a pleasure to work with Mr. Uhl. If the need for his services arises again, I will not hesitate to use him a second time.

Yours very truly,

  
John Evans
